

Caprice *No-Drip Edge*

Caprice is a clean, eye-catching design with timeless appeal. It features a no-drip front edge to help prevent spills from reaching the floor. And the solid and seamless construction of the countertop means there are no gaps in the drip-edge riser.

Caprice No-Drip Edge

The future is beyond flat. *Experience VT Dimensions.*

The Caprice no-drip edge profile adds dimensional beauty and character to VT Dimensions countertops. More than just a flat surface, VT Dimensions bring everything together into one seamless and contoured offering—with the depth, the style, and seamless edge you want.

Experience a whole new dimension in countertops with VT Dimensions.
